

Professor Jude Ehiabhi Okohue obtained his Bachelor of Medicine and Surgery degree from the University of Benin in 1997.

He is a Fellow of both the National Postgraduate Medical College of Nigeria and the West African College of Surgeons. Professor Okohue holds a diploma and a fellowship certificate in Minimal Access Surgery, obtained from the World Laparoscopy Hospital and the European Society of Gynaecological Endoscopy (ESGE) respectively.

He equally holds a certificate in Ultrasound scan. He is the current Dean of the Faculty of Medical Sciences, Madonna University and represents West Africa at the Global Congress on Hysteroscopy, in Barcelona, Spain.

Professor Okohue runs a successful IVF/Minimal Access Surgery unit in Port Harcourt: Gynoscope Specialist Hospital. He has published over 40 articles in several international indexed journals, contributed chapters to over 12 internationally acclaimed textbooks.

Prof. Okohue was one of the authors of the recently published guidelines in the JMIG, on safe Hysteroscopy practice during the covid-19 pandemic. He has had several invitations by leading international organisations including the American Association of Gynaecological Laparoscopists, Hysmena in Dubai, SOGON, International Hysteroscopy Conference, IFFS, AFRH, to mention but a few, as faculty.
