

Amal Drizi (MD) is an independent obstetrician and gynecologist in Algiers, Algeria; with an academic focus on both diagnostic and operative hysteroscopy, yet with a special interest in basic research on the endometrium and on correlations between hysteroscopy and histopathology.

Editorial board member of the International Society of Gynecologic Endoscopy (ISGE) 2020 – 2024, and lead of ISGE's Hysteroscopy Special Interest Group in 2025.

Teacher Board Member of ISGE since 2024.

Since 2024: a selected member in the permanent discussion and interdisciplinary development forum of HARTUS (Hysteroscopy - Assisted Reproductive Technology - Ultrasound) by the Global Community of Hysteroscopy (GCH).

Published author of peer reviewed articles and book chapters.

Active in spreading hysteroscopy both locally and internationally; organizer, coordinator and lecturer of many hysteroscopy sessions in local and international events.
