- ✚ July 4th, 1994, At the postgraduate school of Obstetric and Gynaecology at the Pavia University (Italy), Prof. V. Danesino with the following lecture: **“Apparecchiature, strumentario e tecnica endoscopica in ginecologia”**.
- ✚ October 5th - 7th, 1995, during the International Congress on Peritoneal Adhesions PAX Meeting held in Aachen (Germany) with the following lecture **“Experimental model for neoangiogenesis in adhesion formation”**.
- ✚ December 6th - 9th, 1995, during the 4th Congress ESGE held in Bruxelles (Belgium) with the following lecture: **“Hysteroscopic myoma and polyp resection”**.
- ✚ February 9th - 11th, 1996, during the World Congress of Hysteroscopy held in Miami (USA) with the following video: **“Animal Model For Hysteroscopic Training”**.
- ✚ September 18th - 21st, 1996, during the 5th Congress ESGE held in Bratislava (Slovak Republic) with the following lectures: **“Complications in Hysteroscopy”** and **“Myoma Resection”**.
- ✚ November 9th, 1996, during the Congress L’Endoscopia in Ginecologia, Chirurgia ed Urologia - Corso di aggiornamento per Infermieri Ostetriche e Strumentisti held in Milan (Italy) with the following lecture **“L’endoscopia ginecologica ambulatoriale”**.
- ✚ October 23rd-25th, 1997, during the Course Corso Internazionale di perfezionamento in Isteroscopia diagnostica ed operativa held in Milan (Italy) with the following lectures: **“Quadri di Isteroscopia Diagnostica”** and **“Introduzione alle sessioni pratiche”**.

- ✚ October 23rd- 25th, 1998, during the 3rd Pan - Hellenic Congress of Endoscopy held in Ioannina (Greece) with the following lecture: **“Training in Gynaecological Endoscopy”**.
- ✚ November 13th, 1999, during the congress Limiti Biologici Giuridici ed Etici della Fecondazione Assistita held in Palermo (Italy) with the following lecture: **“Diagnosi Strumentale: Metodiche Tradizionali e di Nuova Acquisizione”**.
- ✚ December 14th, 1999, during the I - A.Fa. R National Congress held in Brescia with the following lecture: **“L’Idrolaparoscopia Trans Vaginale”**.
- ✚ January 21st - 22nd, 2000, during the Office Procedure Workshop in Gynaecological Endoscopy held in Ioannina (Greece) with the following lectures: **“Technique of Transvaginal Hydro laparoscopy”** and **“Correlation between hysteroscopic findings and histology”**.
- ✚ November 22nd - 24th, 2001, during the 10th Congress ESGE held in a Lisbon (Portugal) with the following lecture **“Italian multicentre survey on THL”**.
- ✚ June 22nd - 25th, 2000, during the II A.Fa.R. National Congress held in Rome (Italy) with the following lecture: **“Risultati preliminari dello studio comparativo tra laparoscopia diagnostica e THL”**.
- ✚ September 7th - 8th, 2002, during the 4th Pan - Hellenic Congress of Endoscopy in Gynaecology held in Ioannina (Greece) with the following lectures **“Hardware and Software in Gynaecological Endoscopy”** and **“Hysteroscopic appearance of the functional endometrium”**.
- ✚ November 26th - 29th, 2003, during the 12th Congress ESGE held in Luxemburg with the following lecture **“Different energy forms”** and chairman into the “free communications” session.
- ✚ March 4th - 7th, 2004, during the Seminar and Workshop on Hysteroscopy, Salpingoscopy and Transvaginal Laparoscopy held in Larnaca (Cyprus) with the following lecture **“Hysteroscopic appearance of the functional endometrium”**.
- ✚ October 21st - 23rd, 2004, during the 4th Pan-Hellenic Conference for Colposcopy & Cervical Pathology held in Corfu (Greece) with the following lecture **“Hysteroscopic evaluation of Endometrial Hyperplasia”**.
- ✚ September 22nd - 24th, 2005, during the VII A.Fa.R. National Congress held in Benevento (Italy) with the following lecture: **“Complicanze della laparoscopia operativa rispetto alla chirurgia convenzionale - revisione delle casistiche operatorie di 5 anni (2000-2004) della divisione di Ginecologia dell’Ospedale San Giuseppe di Milano”**.
- ✚ October 6th - 8th, 2005, during the 14th Congress ESGE held in Athens (Greece) with the following lecture **“Endometrium and Hysteroscopy”**.
- ✚ November 24th - 28th, 2005, during the 6th International Congress of Obstetrics and Gynaecology held in Tehran (Iran) with the following lecture **“Endometrial Findings at Hysteroscopy”**.
- ✚ September 21st - 22nd, 2007, during the Congress Lesions in Diagnostic & Operative Hysteroscopy held in Ioannina (Greece) with the following lecture **“Hysteroscopic appearance of the functional endometrium”**.
- ✚ May 11th-12th, 2011, during the Workshop in diagnostic and operative hysteroscopy held in Ioannina (Greece) with the following lecture **“IBS® Integrated Bigatti Shaver, state of the art”**.

- ✚ May 13th-15th, 2011, during the 4th Pan-Hellenic Congress of Gynaecological Endoscopy held in Ioannina (Greece) with the following lecture **“Integrated Bigatti Shaver versus conventional resectoscopy: a randomised comparative study”**.
- ✚ September 21st - 24th, 2011, during the 20th Annual Congress ESGE held in London (England) with the following lecture **“Bipolar resectoscope versus the Integrated Bigatti Shaver: a prospective randomised trial”**.
- ✚ September 21st - 24th, 2011, during the 20th Annual Congress ESGE held in London (England) at the Karl Storz Symposium - New Approaches in Gynaecological Endoscopy with the following lecture **“(IBS®) Integrated Bigatti Shaver, the state of the art”**.
- ✚ October 12th - 14th, 2011, during the Modern Hysteroscopy Course held in Leuven (Belgium) with the following lecture **“From mechanical operative hysteroscopy to IBS® - Integrated Bigatti Shaver”**.
- ✚ March 16th - 17th, 2012, during the ESHRE campus “Reproduction and management of fibroids. From basic research to innovative operative techniques” held in Larnaca (Cyprus) with the following lecture **“New resectoscope: their features and efficacy”**.
- ✚ March 28th - 30th, 2012, during the Modern Hysteroscopy Course held in Leuven (Belgium) with the following lecture **“From mechanical operative hysteroscopy to IBS®”**.
- ✚ September 5th - 7th, 2012, during the Modern Hysteroscopy Course of the Nicosia Branch of the European Academy of Gynaecological Surgery held in Nicosia (Cyprus) with the following lectures: **“Various normal and abnormal endometrial findings during hysteroscopy and IBS® a new technique in operative Hysteroscopy and Energy sources and their use in Hysteroscopic electro surgery”**.
- ✚ September 11th - 14th, 2012, during the 21st Annual Congress ESGE held in Paris (France) at the Karl Storz Symposium-New Approaches in Gynaecological endoscopy with the following lecture **“IBS®, A new approach in Operative Hysteroscopy”**.
- ✚ September 11th - 14th, 2012, during the 21st Annual Congress ESGE held in Paris (France) with the following lecture **“Bipolar resectoscope versus Integrated Bigatti Shaver”**.
- ✚ September 28th-30th, 2012, during the Congress Controversies in Human Reproduction held in Crete (Greece) with the following lecture **“New resectoscopes. Their features and efficacy”**.
- ✚ December 12th - 14th, 2012, during the Congress L’endoscopia del terzo Millennio held in Florence (Italy) with the following lecture **“Isteroshaver”**.
- ✚ April 11th - 12th, 2013, during the ESHRE campus “The impact of reproductive surgery in increasing pregnancy rates in ART” held in Iasi (Romania) with the following lecture **“Hysteroscopic Surgery techniques in ART Bipolar Resectoscope versus IBS® Integrated Bigatti Shaver”**.
- ✚ October 16th - 19th, 2013, during the 22nd ESGE Annual Congress held in Berlin (Germany) with the following lecture **“The Uterine Shaver for Myomectomy - new way to go?”**.
- ✚ October 16th - 19th, 2013, during the PC Course “Modern Approach of myomas including laparoscopy and hysteroscopy” of the 22nd Annual Congress ESGE held in Berlin (Germany) with the following lecture **“Hysteroscopic myomectomy: advantages and limits of the new technologies”**.
- ✚ November 8th, 2013, during the conference Approccio Multidisciplinare della donna in menopausa held in Milan (Italy) with the following lecture **“Nuove metodiche strumentali in Isteroscopia”**.

- ✚ November 7th - 9th, 2013, during the IV National Conference on Minimally invasive Gynaecological Surgery held in Pleven (Bulgaria) with the following lecture **“The IBS® Integrated Bigatti Shaver an alternative approach of operative hysteroscopy – a retrospective comparative study on myomectomy”**.
- ✚ December 11th- 13th, 2013, during the Congress New Face of gynaecological surgery 2013 held in Kiev (Ukraine) with the following lecture **“IBS® (Integrated Bigatti Shaver) possibilities and applications in endoscopic intrauterine surgery”**.
- ✚ May 1st- 4th, 2014, during the Congress: Congreso Internacional de la federacion Mexicana de endoscopia ginecologica held in Huatulco, Oaxaca (Mexico) with the following lectures: **“IBS® an alternative approach to operative Hysteroscopy”, “key-note lecture - The IBS® - The state of the art”, “The IBS® versus conventional Bipolar resectoscope”**.
- ✚ June 13th- 14th, 2014, during the APAGE Regional Congress held in Singapore with the following lecture: **“Hysteroscopic myomectomy with the shaver technique”**.
- ✚ September 24th-27th, 2014, during the 23rd ESGE Annual Congress held in Brussels (Belgium) with the following lecture: **“Advantages of the Hysteroscopic shaver”**.
- ✚ October 29th - 31st, 2014, during 7th International Scientific Congress Operative Gynaecology & Advanced Technologies held in Saint Petersburg (Russian Federation) with the following lecture: **“New Technologies in surgery of the uterine cavity pathology”**.
- ✚ November 6th-7th, 2014, during the Workshop on Diagnostic and Operative Hysteroscopy held in Maribor (Slovenia) with the following lecture: **“Operative Hysteroscopy with the shaver technique: a five - year review”**.
- ✚ November 27th-29th, 2014, during the Pre-Congress Hysteroscopic Surgery Workshop of 15th APAGE Annual Congress held in Kuala Lumpur (Malaysia) with the following lecture: **“The shaver technique a new trend in operative Hysteroscopy”**.
- ✚ November 27th-29th, 2014, during the 15th APAGE Annual Congress held in Kuala Lumpur (Malaysia) with the following lecture: **“New trends in operative Hysteroscopy”**.
- ✚ N.5 Workshops organization: **“New Trends in Operative Hysteroscopy”** for 2014 at the San Giuseppe Hospital, Milan (Italy) with the following lecture: **“The IBS®, the state of the art”**.
- ✚ February 4th- 6th, 2015, during the FRESH II Congress held at Faculty of medicine, Ramathibody Hospital, Bangkok (Thailand) with the following lecture: **“The shaver technique a new trend in operative Hysteroscopy”**.
- ✚ February 27th-28th, 2015, during the 5° Panhellenic Congress of Gynaecological Endoscopy held in ad Athens (Greece) with the following lecture **“The shaver technique a modern interpretation of operative Hysteroscopy”**.
- ✚ May 6th - 8th, 2015, during the Modern Hysteroscopy Course held in Nicosia (Cyprus) with the following lectures **“Resectoscopy Tips and Tricks - Video Presentation of selected cases treated with the Bigatti shaver”**.
- ✚ June 14th-17th, 2015, during the Pre-Congress Workshop Challenging Reproductive Surgery of the 31st Annual Meeting of ESHRE held in Lisbon (Portugal) with the following lecture **“Management of large submucous myoma and multiple submucous myoma is there a limit?”**.
- ✚ August 13th-15th, 2015, during the 10° simposio Italo - Brasilero de Endoscopia Ginecologica held in San Paulo (Brazil) with the following lectures: **“Myomectomy with the shaver technique is there a limit?”, “Polypectomy with the shaver technique”, “The shaver technique tips and tricks”**.

- ✚ September 17th-19th, 2015, during the 7 FOG und 4 DACG Kongress held in Berlin (Germany) with the following lecture **“The Bigatti shaver a new trend in Operative Hysteroscopy”**.
- ✚ October 7th- 10th, 2015, during the 24th ESGE Annual Congress held in Budapest (Hungary) with the following lecture **“The Intrauterine Bigatti shaver”**.
- ✚ October 24th - 25th, 2015, during the Hysteroscopic Workshop held in Al Khobar (Saudi Arabia) with the following lectures **“The Bigatti shaver technique, Tips and tricks and The Intrauterine Bigatti Shaver a Clinical review”**.
- ✚ N.2 Workshops organization: **“New Trends in Operative Hysteroscopy”** for 2015 at the san Giuseppe Hospital, Milan (Italy) with the following lectures: **“The IBS[®], the state of the art and The Shaver technique tips and tricks”**.
- ✚ February 19th- 20th, 2016, during the Debate Topics in Obstetric and Gynaecology held in Teheran (Iran) Shahid Beheshti University with the following lectures: **“The shaver technique a new interpretation of modern Hysteroscopy and The Shaver technique tips and tricks”**.
- ✚ May 28th - 29th, 2016, during the Hysteroscopic Workshop at the Women’s Hospital Hamad Medical Corporation - held in Doha (Qatar) with the following lecture: **“The intrauterine Bigatti Shaver IBS[®]”**.
- ✚ June 2nd - 5th, 2016, during the 12th AAGL International Congress on the ultimate advances in minimally invasive gynaecological surgery held in Mumbai (India) with the following lecture: **“Innovation in Hysteroscopic Surgery and New instrumentation and energy forms in hysteroscopic surgery”**.
- ✚ September 14th-17th, 2016, during the ISGE Asia - Pacific regional Meeting held in Nusa Dua Bali (Indonesia) with the following lecture **“The difference between conventional hysteroscopic resection and the shaver technique”**.
- ✚ October 2nd-5th, 2016, during the 25th ESGE Annual Congress held in Bruxelles (Belgium) with the following lecture **“Polyp and Myoma surgery”**.
- ✚ October 7th, 2016, during the Congresso SEGI Toscana – Isterectomia Mininvasiva held in Viareggio (Italy) with the following lecture **“The Shaver technique in isteroscopia”**.
- ✚ October 24th-25th, 2016, during the Corso Teorico-Pratico di isteroscopia: “approccio isteroscopico moderno” held in Negrar, Verona (Italy) with the following lecture **“Nuove tecnologie per la rimozione delle patologie uterine. The shaver Technique”**.
- ✚ November 18th, 2016, during the Congresso Interregionale AGOI Marche-Abruzzo-Molise-Umbria held in Senigallia, Ancona (Italy) with the following lecture **“The Shaver technique tra innovazione e semplificazione”**.
- ✚ December 6th-7th, 2016, during the Workshop: “New Trends in Operative Hysteroscopy” held at the Casa di Cura Sanatorio Triestino, Trieste (Italy) with the following lecture: **“The IBS[®], the state of the art”**.
- ✚ February 10th, 2017, during the Congresso l’isteroscopia Lo Stato dell’Arte held in Clinica Mangiagalli, Milano (Italy) with the following lecture **“L’istero Shaver”**.
- ✚ February 25th, 2017, during the workshop of the 2° Corso di Isteroscopia held at the Garibaldi Hospital held Catania (Italy) - Catania with the following lectures: **“Lo Shaver Intrauterino e Osservazione dello strumentario e delle apparecchiature”**.
- ✚ March 9th, 2017, during the workshop of the 2nd Nordic Congress on Gynaecological Endoscopy and the 3rd Oslo Endoscopic Winter Meeting held in Norefjell (Norway) with the following lecture: **“The IBS[®] tips and tricks”**.

- ✚ May 2nd – 5th ,2017, during the global Congress of Hysteroscopy held in Barcelona (Spain) with the following lectures: **“How Ulipristal Acetate Affects Hysteroscopic Myomectomy and Possibilities of the Intrauterine Bigatti Shaver”**.
- ✚ May 22nd-23rd, 2017, during the Corso di Isteroscopia: “Nuove tecniche e tecnologie in isteroscopia” held in Negrar, Verona (Italy) at the ISSA International School of surgical anatomy with the following lecture **“Nuove tecnologie per la rimozione delle patologie uterine. Morcellatore uterino sec. Bigatti”**.
- ✚ June 15th - 18th 2017, during the SESGE Guangzhou Meeting held in Guangzhou (China) with the following lectures: **“IBS The state of the art and New trends in Operative Hysteroscopy”**.
- ✚ October 18th-21st, 2017, during the 26th ESGE Annual Congress held in Antalya (Turkey) with the following lecture **“Intrauterine Shaver for Fibroid and Polyps”**.
- ✚ October 27th, 2017, during the Meeting Focus On: Attualità in isteroscopia - President G.C. Zanni - Scientific Director Dr. T.S. Patrelli held in Vicenza (Italy) with the following lecture **“La tecnica dello Shaver per l’approccio della patologia endouterina”**.
- ✚ December 1st, 2017, during the Meeting: New Trends In Operative Hysteroscopy - President Dr. S. Messini - Scientific Committee Dr. G. Bigatti held in Bolzano (Italy) with the following lectures: **“L’Intrauterine Bigatti Shaver IBS® lo stato dell’arte and La Tecnica dello Shaver”**.
- ✚ February 14th-15th, 2018, during the Meeting of the 11th SHRES Sudan Human Reproduction & Embryology Society Annual Meeting held in Khartoum (Sudan) with the following lectures: **“The Shaver technique as gold standard for operative Hysteroscopy and Tips and tricks of the shaver technique”**.
- ✚ March 16th, 2018, during the Meeting: Isteroscopia: una storia di domani held in Milan (Italy) with the following lecture: **“La tecnica dello Shaver: ultimi aggiornamenti”**.
- ✚ March 23rd - 24th, 2018, during the Meeting: The determinants for an effective dialogue – Mother - Embryo, held in Trieste (Italy) with the following lecture: **“Video Session the Submucous Myoma a New technique of ablation”**.
- ✚ May 5th, 2018, during the 2018 Symposium on Hysteroscopy: Updates on practical techniques & clinical experience hands on workshop held in Hong Kong (China) with the following lectures: **“The Shaver technique - A modern alternative to operative Hysteroscopy and Practical tips for the hysteroscopic Shaver – Case Sharing and other techniques”**.
- ✚ May 16th/18th/19th, 2018, during the 11° simposio Italo - Brasilero de Endoscopia Ginecologica held in San Paolo (Brazil) with the following lectures: **“The Shaver Technique: the State of the Art”, “The IBS®: an alternative technique for approaching polyps and myomas”, “The Shaver Technique: a clinical and technical update”**.
- ✚ September 14th /16th ,2018, during The IVF Panhellenic Congress “New data on Infertility and assisted reproduction” held in Ioannina (Greece) with the following lectures: **“Operative Hysteroscopy IBS® Intrauterine Bigatti Shaver, Polyps and Fibroids - When to remove prior to art”**.
- ✚ October 29th /30th, 2018, during The Corso di Isteroscopia: “Nuove tecniche e tecnologie in isteroscopia” held in Negrar, Verona (Italy) at the ISSA International School of surgical anatomy with the following lecture **“Nuove tecnologie per la rimozione delle patologie intracavitarie: lo Shaver uterino”**.
- ✚ January 21st /24th, 2019, during The XIII international congress on reproductive medicine held in Moscow (Russian Federation), with the following lecture **“The Shaver Technique for Operative Hysteroscopy a clinical and technical update”**.

- ✚ February 21st/23rd, 2019, during ENDODUBAI held in Dubai (United Arab Emirates), with the following lectures **“What is the value of hysteroscopic biopsies in uterine pathology and Tips and tricks and main indications for the Shaver technique”**.
- ✚ March 13th, 2019, during 6th Annual Congress of MESGE held in Antalya (Turkey), with the following lectures **“New developments of the Shaver technique for Operative Hysteroscopy”**.
- ✚ April 20th, 2019, during the 6^o Yangtze river forum on gynaecologic oncology held in Chongqing (China), with the following lecture **“The Shaver technique: new developments”**.
- ✚ April 25th, 2019, during 1st Course: New trends in operative hysteroscopy held in Shanghai (China) at Renji Hospital with the following lecture **“IBS®: The state of the art”**.
- ✚ May 18th, 2019, during the 27th Beijing international gynecological endoscopy & mini-invasive surgery symposium held in Beijing (China) by Fuxing Hospital, with the following lecture **“The Shaver technique for Operative Hysteroscopy new developments”**.
- ✚ May 21st, 2019, during the ISGE and Shanghai Joao Tong University Affiliated Sixth People’s Hospital South Campus held in Shanghai (China), with the following lecture **“The Shaver technique at the SELEC – Sino European Life Expert Centre”**.
- ✚ May 25th, 2019, during the 2019 Sino-European Summit of Gynecology Endoscopy and ESGE regional meeting held in Guangzhou (China), with the following lecture **“IBS®: the future”**.
- ✚ June 29th, 2019, during the 7th APAGE Regional Conference of Northeast China & Shengjing Minimally Invasive Gynecologic Forum 2019 held in Shenyang (China), with the following lecture **“The future of the Shaver Technique and Intrauterine Bigatti Shaver Practical Tips”**.
- ✚ July 6th, 2019, during the 2019 Shanghai international Ob/Gyn Forum held in Shanghai (China), with the following lecture **“Quality Assessment of the Shaver technique”**.
- ✚ July 6th/7th, 2019 during the National Hysteroscopic Forum held in Shanghai (China), with the following lectures **“IBS A new concept of Operative Hysteroscopy and Practical Tips of the Shaver Technique”**.
- ✚ July 20th/21st, 2019, during the 2019 APAGE reproductive & advanced hysteroscopy workshop with Hysteroscopy Certification held in Ircad (Taiwan) with the following lectures **“Fundamental of Hysteroscopy and IBS A new concept of Operative Hysteroscopy and a critical evaluation of the Shaver Technique: past and future”**.
- ✚ August 2nd/3rd, 2019, during the 2019 COGA Congress of Chinese Obstetricians and Gynecologists held in Nanjing (China), with the following lecture **“New developments in Hysteroscopy”**.
- ✚ August 16th, 2019, during the 15^o Annual PSGE Congress and 1st Regional Meeting of ESGE & APAGE MIGS: East Meet West held in Manila (Philippines), with the following lectures **“The Shaver Approach to Submucosal Myomas and Practical tricks of the Shaver technique”**.
- ✚ August 29th, 2019, during the China - Eu seminar on advances in diagnosis and treatment of intrauterine diseases 2019 held in Shanghai (China), with the following lecture **“Operative Hysteroscopy with the Shaver technique how to minimize adhesion formation”**.

- ✚ August 31st, 2019, during the seminar Office Hysteroscopy Update held in Pok Oi Hospital, Hong Kong with the following lectures **“Hysteroscopy Shaver in Office setting use and Hysteroscopic surgery - future trend in new era”**.
- ✚ September 7th, 2019, during the AAGL and 14th National Gynecological Endoscopic Conference held in Xi'an (China), at the Second Affiliated Hospital of Xi'an Jiatong University with the following lecture **“Modern Hysteroscopy at the SELEC Sino European Life Expert Centre”**.
- ✚ September 8th, 2019, during the Summit of uterine and tube diseases and the 2nd annual meeting of the Hybrid Cavity and Tubal diseases Panel in Henan Province held Zhengzhou (China), with the following lecture **“IBS® The new hysteroscopic technique”**.
- ✚ September 20th/22nd, 2019, during 20th APAGE Annual Congress held in Chongqing (China), with the following lecture **“The Shaver at the SELEC Sino European Life Expert Centre”**.
- ✚ October 6th /9th, 2019, during the Pre Congress-Workshop n.5 at the 28th ESGE Annual Congress held in Thessaloniki (Greece) with the following lecture **“The Mini Shaver a bridge between outpatient and inpatient procedures”**.
- ✚ October 18th, 2019, during the Renji Hospital and Jaotong University IVF conference held in Shanghai (China) with the following lecture **“The Shaver technique in Infertility”**.
- ✚ October 19th, 2019, during the First cold knife hands on training course of Anhui Province n.2 People's hospital held in Hefei (China) with the following lecture **“The shaver in adhesion prevention”**.
- ✚ October 19th, 2019, during the Red House and Bai Jia hospital and Chinese Non - Government medical institution association held in Shanghai (China) with the following lectures **“New Trend in Modern Hysteroscopy and The shaver approach for adhesion prevention in operative hysteroscopy”**.
- ✚ October 24th/25th, 2019, during the National Hysteroscopic Forum Xi'an held in Xi'an (China), with the following lectures **“The Shaver technique how to minimize endometrial trauma in Operative Hysteroscopy and IBS® operating steps introduction”**.
- ✚ November 16th, 2019 during the Gynecological IBS Round table held at Hangzhou Bay Hospital (China), sponsored by Storz with the following lecture **“The Shaver technique a new concept for operative hysteroscopy a clinical and technical overview”**.
- ✚ November 22nd/23rd, 2019, during the 2019 Pujiang International Symposium of Gynecologic Oncology held at Renji Hospital, Shanghai (China), with the following lecture **“The Shaver technique at the Sino European Life Expert Centre”**.
- ✚ November 29th/30th, 2019, during 2nd Course, New trends in operative hysteroscopy held in Shanghai (China), at Renji Hospital with the following lecture **“The shaver in adhesion prevention”**.
- ✚ December 5th /8th, 2019, during 9th Global Symposium on Minimally invasive gynecologic surgery held in Beijing (China), with the following lectures **“IBS Operating Steps Introduction and The IBS technique how to prevent intrauterine adhesions”**.
- ✚ December 6th, 2019, during 175th Anniversary of Renji Hospital, Shanghai Jiao Tong University school of medicine international conference on Tumor Biology and translational medicine held at Renji Hospital Shanghai (China) with the following lecture **“Application advantages of the Shaver technology in the treatment of endometrial disease”**.

- ✚ September 28th, 2020, during the International Top-level forum on Engineering Science and Technology Development Strategy “New strategies and new Technologies for Tumor Diagnosis and Treatment” held in Shanghai (China) with the following lecture **“The role of Hysteroscopy in Endometrial Cancer detection”**.
- ✚ November 7th, 2020, during the 2020 International forum on the Progress of Female Tumor Diagnosis and Treatment in Hebei Province and the Launch of Endometrial Cancer Screening Center of Hebei Provincial Hospital of Traditional Chinese Medicine held in Shijiazhuang (China) with the following lecture **“The Shaver Technique in modern hysteroscopy”**.
- ✚ December 5th, 2020, during the 2020 ObGyn Forum held in Shanghai (China) with the following lecture **“New possible indications of the Shaver technique”**.
- ✚ December 11th, 2020, during the Opening of the Hysteroscopic Unit at Shenzhen Maternity and Medical Healthcare Hospital held in Shenzhen (China) with the following lecture **“A clinical overview of the Shaver technique”**.
- ✚ April 17th, 2021, during the Satellite Storz Symposium organized by the second affiliated hospital of Nanjing Medical University held in Nanjing (China) with the following lecture **“The best Shaver clinical indications”**.
- ✚ April 24th, 2021, during the Nankai University symposium organized by the Tianjin Central Hospital and sponsored by Wolf company held in Tianjin (China) with the following lecture **“The Shaver technique a clinical and technical overview”**.
- ✚ May 15th, 2021, during the Zhangzhou New Course of Gynecological Endoscopy held in Zhangzhou (China) with the following lecture **“The Shaver technique a clinical and technical overview”**.
- ✚ May 22nd, 2021, during the Taiyuan Central Hospital meeting “small cavity big world” held in Taiyuan (China) with the following lecture **“The Shaver technique a clinical and technical overview”**.
- ✚ May 29th, 2021, during the Hangzhou meeting sponsored by Bioregen held in Hangzhou (China) with the following lecture **“The Shaver technique a clinical and technical overview”**.
- ✚ June 5th, 2021, during the Red House Hospital Forum held in Shanghai (China) with the following lecture **“The Shaver Why”**.
- ✚ June 12th, 2021, during the Reproductive Hospital of Guangxi Zhuang Autonomous Region held in Nanning (China) with the following lecture **“The SELEC: Sino European Life Expert Centre”**.
- ✚ July 3rd, 2021, during the 6th “Xiangya Forum on Gynecological Hot Topics held in Changsha (China) with the following lecture **“The Shaver technique a clinical and technical overview”**.
- ✚ October 10th, 2021, during the: Care Uterus, preserve health Experts Forum held in Beijing (China) with the following lecture **“SELEC Renji Hospital guidelines”**.
- ✚ October 23rd, 2021, during the 9th National Summit of Reproductive Immunology held in Shanghai (China) with the following lecture **“Application of Hysteroscopy in repeated abortion”**.
- ✚ August 13rd, 2022, during the Training Class “Zhangjiakou city hysteroscopic technology” held in Zhangjiakou (China) with the following lecture **“The IBS is not a morcellator: “Possible applications of the Shaver technique”**.
- ✚ August 28th, 2022, during the Foshan meeting: “Care Uterus, preserve health” Experts Forum-Foshan Station sponsored by Bioregen held in Foshan (China) with the following lecture **“Renji guidelines and adhesion prevention in Hysteroscopy”**.

- ✚ November 7th, 2022, during the ECRES meeting held in Leuven (Belgium) with the following lectures “**New Insights in Hysteroscopy Surgery; Tips and tricks for the Bigatti Shaver**”.
- ✚ February 26th, 2023, during the Beijing meeting: “Academic forum upon promotion of office hysteroscopy in China” organized by the Pecking Union Medical College Hospital (Dongdan campus) held in Beijing (China) with the following lecture “**Day Surgery Management at Renji Hospital**”.
- ✚ March 18th, 2023, during the Changsha meeting: “Female fertility protection and restoration” organized by the Hunan Province Laparoscopic and minimally invasive surgery medical technology demonstration center held in Changsha (China) with the following lecture “**No more blind procedures in Operative hysteroscopy**”.
- ✚ April 7th, 2023, during the Changsha meeting: “Training for Standardize Ambulatory Hysteroscopy with Cold Knife Instruments” organized by Department of Gynecology and Obstetrics, Xiangya Hospital of Central South University held in Changsha (China) with the following lecture “**Day Surgery management at the Sino European Life Expert Centre of Renji Hospital**”.
- ✚ April 15th, 2023, during the Chongqing meeting: “10th Yangtse forum of oncological gynecology” organized by the first University affiliated Chongqing military hospital of the new Liang Jiang district held in Chongqing (China) with the following lecture “**Day Surgery management at the Sino European Life Expert Centre of Renji Hospital**”.
- ✚ May 7th, 2023, during the Rome GynItaly meeting: “PG Course 4” organized by Policlinico Universitario Agostino Gemelli - Training Center; Largo Agostino Gemelli, 8,00168 Rome (Italy) with the following lecture “**Role of TRD in the endometrial sampling**”.
- ✚ June 10th, 2023, during the 2023 Red House National Modern Hysteroscopy Training Course held in Shanghai (China) with the following lecture “**Progress in the application of TRS in uterine cavity neoplasms**”.
- ✚ June 30th, 2023, during the women - health meeting held in Zibo (China) with the following lecture “**TRS a revolution in modern hysteroscopy**”.
- ✚ July 15th, 2023, during the First Gynecological Professional Committee of Yantai Society of Integrated Chinese and Western Medicine held in Yantai (China) with the following lecture “**The Shaver technique**”.
- ✚ July 22nd, 2023, during the conjunct meeting of the Colposcopy Chinese Society, MIGS and Reproductive infections and Cervical cancer society held in Harbin (China) with the following lecture “**TRS a revolution in modern hysteroscopy**”.
- ✚ December 1st, 2023, during the 3rd Wuxi International Gynecological Minimally non-invasive seminar held in Wuxi, Jangsu (China) with the following lecture “**TRS Tissue Mechanical Removal Systems**”.
- ✚ December 10th, 2023, during the 11th Academic Exchange Meetings of Reproductive Immunology & The 8th Pujiang Forum of Reproductive Immunology " held in Renji Hospital Shanghai (China) with the following lecture “**Application of Hysteroscopy in repeated abortion**”.
- ✚ December 17th, 2023, during the new progress of suitable technology of maternity rehabilitation of Hunan Medical Education Science and Technology Society Maternal Health Professional Committee held in Changsha (China) with the following lecture “**TRS Tissue Mechanical Removal Systems today**”.
- ✚ December 23rd, 2023, during the 7th annual academic conference of the Obstetrics & Gynecology physician branch of the Hunan Provincial medical Association held in Changsha (China) with the following lecture “**TRS Tissue Mechanical Removal Systems**”.

- ✚ January 16th/19th, 2024, during the XVIII International Congress on Reproductive Medicine held in Moscow (Russian Federation) with the following lecture **“Tissue Mechanical Removal systems a three years’ experience of a Hysteroscopic dedicated Unit”**.
- ✚ March 16th, 2024, during 2^o comfortable medical care in Gynecology held in Linyi (China) by the WOYI medical group with the following lecture **“Tissue Mechanical Removal Systems”**.
- ✚ May 10th - 12th, 2024, during First National Conference of the Bulgarian Association for Minimally Invasive and Robotic Surgery (BAMIRS) held in Pleven (Bulgaria) with the following lecture **“Tissue Mechanical Removal systems in modern hysteroscopy”**.
- ✚ May 24th, 2024, during the Pre Congress workshop of the 36th ISGE Annual Meeting 2024 held in Beijing (China) with the following lecture **“New Developments and clinical applications of TRS”**
- ✚ May 25th, 2024, during the 36th ISGE Annual Meeting 2024 held in Beijing (China) with the following lecture **“Intrauterine Bigatti Shaver: Game Changer. Real Life scenarios”**.
- ✚ May 29th, 2024, during the Salerno GynItaly 24 held in Salerno (Italy) with the following lecture **“Tissue Mechanical removal devices: are there any limits?”**.
- ✚ June 11th, 2024, during the workshop on hysteroscopy organized by the National Obstetrics and Gynecology Greek conference held in Ioannina (Greece) with the following lecture **“Limits of Tissue Mechanical Removal Systems?”**.
- ✚ July 11th, 2024, during the Sino - Eu Symposium on New Advances in Gynecologic Endoscopy held in Shanghai (China) with the following lecture **“Advantages and Limits of TRS”**.
- ✚ July 20th, 2024, during the 2024 Academic Annual Meeting of the Obstetricians and Gynaecologists Branch of the Guangxi Medical Doctor Association held in Nanning (China) with the following lecture **“The Sino European Life Expert Centre of Shanghai”**.
- ✚ August 3rd, 2024, during the 2024 COGA Annual Meeting held in Shanghai (China) with the following lecture **“TRS A revolution in modern hysteroscopy”**.
- ✚ October 12th, 2024, during the 2024 Second Meeting of Translational Medicine Society of Shandong Province held in Qingdao (China) with the following lecture **“New progress and clinical application of hysteroscopic surgery”**.
- ✚ October 20th, 2024, during the Seminar on Diagnosis and Treatment of Intrauterine Diseases and Prevention and Control of Cervical Cancer in Primary Hospitals held in Jiading District Shanghai (China) with the following lecture **“Progress in Operative Hysteroscopy”**.
- ✚ October 25th, 2024, during the 12th Academic Exchange Meetings of Reproductive Immunology & The 9th Pujiang Forum of Reproductive Immunology " held in Renji Hospital Shanghai (China) with the following lecture **“Application of Hysteroscopy in repeated abortion”**.
- ✚ November 20th-22nd, 2024, during 10th Mediterranean Endo Gynaecological Surgery Congress held in Catania (Italy) with the following lecture: **“Limiti e vantaggi dell’Intrauterine Bigatti Shaver: il nuovo 15Fr.”**.
- ✚ November 30th, 2024, during the 2024 Annual Meeting of new fertility protection progress of the professional committee of Hunan province female doctors’ association held in Changsha (China) with the following lecture **“Applications of the shaver technique in infertility”**.

- ✚ January 21st/24th, 2025, during the XIX International Congress on Reproductive Medicine held in Moscow (Russian Federation) with the following lecture **“Limits and advantages of the Intrauterine BIGATTI Shaver: the new 15Fr”**.
- ✚ April 14th, 2025, during the Ob-Gyn department doctors and residents daily meeting at the Siena University Hospital organized by Prof. Enrico Zupi held in Siena (Italy) with the following lecture **“Tip and Tricks of the Shaver technique”**.
- ✚ May 15th, 2025, during the pre-congress round table of the 1st AMRAS International Congress held in Kuala Lumpur (Malaysia) with the following lecture **“Innovations in Hysteroscopic Surgery: The Renji Approach to Minimally Invasive Care”**.
- ✚ May 16th, 2025, during the pre-congress workshop of the 1st AMRAS International Congress held in Kuala Lumpur (Malaysia) with the following lecture **“Setup and Technique for myomectomy using BIGATTI shaver”**.
- ✚ May 18th, 2025, during the 1st AMRAS International Congress held in Kuala Lumpur (Malaysia) with the following lecture **“Reducing the risk of Asherman’s in Operative Hysteroscopy”**.
- ✚ May 21st /25th, 2025 during the ISGE 37th Annual Meeting held in Zanzibar (Tanzania) with the following lecture **“The Tissue Removal System a revolution in Hysteroscopic Surgery”**.
- ✚ May 27th /29th, 2025, during GynItaly 25 held in Venice (Italy) with the following lecture **“Tissues removal devices Strengths and limitations”**.
- ✚ June 6th, 2025, during the XXXVIII International Congress “New Technologies for diagnosis and treatment of gynaecologic diseases” held in Moscow (Russian Federation) with the following lecture **“The BIGATTI Shaver in infertility”**.
- ✚ June 28th, 2025, during 2nd Educational Theoretical and Clinical Workshop on Hysteroscopy titled “Mastering Hysteroscopy,” held in Ioannina (Greece) with the following lecture **“Tissue Mechanical Removal Systems”**.
- ✚ June 29th, 2025, during the 41st Annual Meeting of ESHRE held in Paris (France) with the following lecture **“Tissue Mechanical Removal Systems”**.
- ✚ September 19th, 2025, during the 9th International Scientific Conference of Iraqi Society of Obstetrics & Gynecology held in Bagdad (Iraq), with the following lecture: **“The BIGATTI Shaver in infertility”**.
- ✚ September 3rd, 2025, during the 11th Mediterranean Endo-Gynecological Surgery Congress held in Catania (Italia), con la following lecture: **“Tissue Mechanical Devices: strength and limitations”**.
- ✚ October 9th, 2025, during the practical workshop with hands on training New Trends in surgical hysteroscopy. Surgical treatment of intrauterine pathologies using shaver techniques held in Astana (Kazakhstan), with the following lectures: **“The shaver techniques: Why? Technique for performing operations using a Shaver, Shaver theory by Giuseppe Bigatti”**.
- ✚ October 10th, 2025, during the International Scientific and practical conference of the public organization of Gynecologists-Endoscopists of Kazakhstan “Hysteroscopy 360: See. Understand. Act” held in Astana (Kazakhstan), with the following lecture: **“Technique for performing surgeries in various degrees of Asherman’s syndrome. Efficiency criteria”**.
- ✚ November 23rd, 2025, during the international scientific meeting of the Third Bethune Hospital of Jilin University held in Changchun, Jilin (China), with the following lecture: **“The past and future of TRS”**.
- ✚ November 25th, 2025, during the international scientific meeting of the Chengdu Women’s and Children Central Hospital held in Chengdu, Sichuan (China), with the following lecture: **“The past and future of TRS”**.

- ✚ November 26th, 2025, during the international scientific meeting of the First Affiliated Hospital of Chongqing Medical University held in Chongqing, (China), with the following lecture: **“The past and future of TRS”**.
- ✚ November 28th, 2025, during the international scientific meeting of the Guangdong Women and Children Hospital held in Guangzhou, Guangdong (China), with the following lecture: **“The past and future of TRS”**.
- ✚ November 30th, 2025, during the international scientific meeting of the The First Affiliated Hospital of Kunming Medical University held in Kunming, (China), with the following lecture: **“The past and future of TRS”**.
- ✚ December 3rd, 2025, during the international meeting: impatto delle patologie uterine sulla fertilità e sull’outcome della gravidanza held in Siena (Italy) with the following lecture **“Tavola rotonda – miomi sottomucosi ed isteroscopia tutto quello che c’è da sapere”**.
- ✚ December 14th, 2025, during the Centenario of the SIGO Congress “Il tempo delle donne aspetti scientifici sociali e culturali held in Bari (Italy) with the following lecture **“IL mondo dei tissue mechanical removal devices: cosa c’è da sapere”**.
- ✚ December 20th, 2025, during the 13th Pu Jang Gynecological Oncology Academic Conference 2025 held in Shanghai (China) with the following lecture **“The BIGATTI Shaver evolution”**.
January 23rd, 2026, during the XX Jubilee International Congress on reproductive medicine. Endometriosis. Artificial Intelligence in Gynecology held in Moscow (Russian Federation) with the following lecture **“Bigatti shaver role in modern reproductive medicine and intrauterine surgery”**.
- ✚ February 7th, 2026, during ENDODUBAI 2026 held in Dubai (United Arab Emirates), with the following lectures **“Tissue Mechanical Removal Systems a new era in Operative Hysteroscopy”**.
- ✚ February 11th, 2026 during the ceremony for honorary Professor at Pleven with the following lecture **“A Revolutionary Intuition: History of The BIGATTI Shaver” Prof. Giuseppe Bigatti**.
- ✚ March 7th, 2026, during the event Hands Beyond the Intrauterine Bigatti shaver held in Cefalu’ (Italy) with the following lecture **“Clinical Indications of TRS”**.
- ✚ April 23rd, 2026, at Aula San Raffaele of the San Raffaele Hospital held in Milano (Italy) with the following lecture **“New trends from Office to Operative Hysteroscopy”**.
- ✚ May 8th, 2026, during the event Gynaecology and Obstetrics New Trends 2026 held in Poznan (Poland) with the following lecture **“Tissue Mechanical Removal devices strengths and limitations in hysteroscopic myomectomy”**.
- ✚ May 15th, 2026, during the 38th ISGE Annual meeting and 21st ANGOL meeting held in Algiers (Algeria) with the following lecture **“The Pros and Cons of the IBS Shaver After 10.000 Procedures?”**.
- ✚ May 23rd, 2026, during the 16th international biennial meeting Daniel Dargent held in Maratea (Italy) with the following lecture **“Mechanical tissue removal systems vs energy devices the best choice is...”**.
- ✚ May 30th, 2026, during the workshop: “New Trends in Operative Hysteroscopy” held in Ioannina (Greece) with the following lecture **“Clinical Indications of the BIGATTI Shaver technique”**.
- ✚ June 5th, 2026, during the workshop: “Masterclass Hysteroscopy & Ultrasound building bridges” held in Antwerp (Belgium) with the following lecture **“The Karl Storz IBS shaver concept ready to tackle all gynaecological pathologies?”**.

- ✚ August 26th, 2026, during the workshop: “Mastering Modern Hysteroscopy” held in Bagdad (Iraq)) with the following lecture **“Clinical indications of the BIGATTI Shaver technique”**.
- ✚ September 4th/6th 2026, during the 26th APAGE & 13th IGES 2026 held in Bali (Indonesia) with the following lectures **“Latest approaches and tools for effective tissue removal in hysteroscopic procedures, Innovative strategies and case reports in submucous fibroid management using TRS, The Pros and Cons of the IBS BIGATTI shaver after more than 10.000 procedures, Clinical Indications of the BIGATTI Shaver technique”**.
- ✚ September 12th, 2026, during the international congress: “ Endo Frontiers Albania” held in Tirana (Albania)) with the following lecture **“Past & future of the BIGATTI Shaver technique ”**.

WEBINARS

- ✚ June 2nd/4th, 2020, during the XXXIII International Congress with a course of endoscopy “New Technologies in diagnostic and treatment of gynecological diseases” held in Moscow (Russian Federation) with the following lecture **“New possibilities of IBS® in intrauterine pathology”**.
- ✚ June 6th, 2020, during the ISGE Webinar “Management of uterine fibroids” held in Beijing (China) with the following lecture **“Office Hysteroscopy for Myomectomy how far can it go”**.
- ✚ June 21st, 2020, during the Seventh session of the standardization of hysteroscopy diagnostic technology held in Guangzhou First people’s Hospital South China University of technology Intrauterine Disease Diagnosis and Diagnosis Center (China) with the following lecture **“Intrauterine Bigatti Shaver New Applications”**.
- ✚ September 17th, 2020, during the SESGE /ESGE held in Guangzhou (China) with the following lecture **“IBS® Shaver as first line approach to common pathology”**.
- ✚ September 26th, 2020, during the Fuxing hospital webinar organized by Prof Enlan Xia held in Beijing (China) with the following lecture **“Clinical applications of the shaver technique”**.
- ✚ November 13th, 2020, during the The First Affiliated Hospital, Sun Yat - Sen University webinar held in Guangzhou (China) with the following lecture **“The Role of the Shaver Technique at the SELEC”**.
- ✚ December 9th, 2020, during the Cortona Live Endoscopia, fertilità e procreazione assistita webinar held in Cortona (Italy) with the following lecture **“La tecnica dello Shaver in isteroscopia”**.
- ✚ January 21st, 2021, during the Moscow XV International Congress on reproductive Medicine webinar held in Moscow (Russian Federation) with the following lecture **“The Shaver technique at the SELEC”**.
- ✚ February 25th/26th, 2021, during ENDODUBAI webinar held in Dubai (United Arab Emirates), with the following lectures **“Storz Symposium: Understand the IBS® setup and applications in ambulatory setting”, “Hot Topics in Hysteroscopy: The Shaver technique Why?”, “Office Hysteroscopy when, how and to whom”, “Hysteroscopy session: How to manage placental remnants”**.
- ✚ March 2nd, 2021, during the BSGE (British Society of Gynecological Endoscopy) Pre - Congress Workshop webinar held in China with the following lecture **“Why to choose the Shaver technique today”**.
- ✚ March 13th, 2021, during Peking Union Medical College Hospital webinar held in England with the following lecture **“The Shaver treatment of uterine malformations”**.

- ✚ April 22nd, 2021, during the Masterclass building bridges ultrasound & hysteroscopy webinar held in Belgium with the following lecture **“The Shaver in unusual cases of endometrial pathology”**.
- ✚ April 23rd, 2021, during the Endometriose e cirurgia minimamente invasiva webinar held in Brasil with the following lecture **“Shaver Applications and Results”**.
- ✚ May 9th, 2021, during the 10th Congress of the Asia Pacific Initiative on Reproduction Aspire with the following lecture **“Why we should choose the Shaver technique as first line approach in office hysteroscopy”**.
- ✚ May 27th, 2021, during the Karl Storz interactive E-masterclass:” Unlocking the potential of intrauterine Shaving as part of the 46th Arab Health Congress & Exhibition with the following lecture **“The Shaver Technique New Applications and Results”**.
- ✚ May 22nd, 2021, during the 29th Beijing International Gynecological Endoscopy & mini-invasive surgery online symposium with the following lecture **“Why the Shaver technique should be the first line approach in Operative hysteroscopy”**.
- ✚ June 29th, 2021, during the 2021 ESHRE Meeting with the following lecture **“Placental remnants and the use of the Shaver”**.
- ✚ July 8th, 2021, during the 9th Gyne forum Dubai held in Dubai (United Arab Emirates) with the following lecture **“Why you should choose the Shaver”**.
- ✚ July 15th/16th, 2021, during the 7th Curso Internacional de Histeroscopia held in Mexico City (Mexico) with the following lecture **“Mechanical resection in Hysteroscopy: why?”**.
- ✚ July 16th /18th, 2021, during the new progress in long-term management of diseases in gynecological clinics held in Urumqi (China) with the following lecture **“The Shaver technique a clinical and technical overview”**.
- ✚ August 14th, 2021, during the meeting held in the Shenzhen maternity & Child Healthcare Hospital, Shenzhen (China) with the following lecture **“Placental Remnants and the use of the Shaver”**.
- ✚ August 26th/29th, 2021, during Pre-Congress Workshop and the ISGE annual meeting Back to Basics in MIGS held in Split (Croatia) with the following lectures **“Pre-Congress Workshop: Learning the Intrauterine Bigatti Shaver Practical Tips”**, **“Hysteroscopic Morcellation?”**.
- ✚ October 5th, 2021, during the ESGE annual meeting 2021 with the following event **“Meet the Expert of the Intrauterine Bigatti Shaver (IBS®)”**.
- ✚ October 30th, 2021, during the 4th international forum on theory and practice of cancer prevention and control held in Shijiazhuang (China) with the following lecture **“The role of hysteroscopy in endometrial cancer diagnosis”**.
- ✚ October 30th, 2021, during the Seminar for advanced diagnosis and treatment of intrauterine diseases of Hunan Province held in Changsha (China) with the following lecture **“SELEC Renji hospital guidelines”**.
- ✚ November 12th, 2021, during the Hong - Kong Sanatorium & Hospital C.M.E. in Obstetrics & Gynecology held in Hong – Kong (China) with the following lecture **“The Shaver technique new applications and Results”**.
- ✚ November 28th, 2021, during the ISIVF International Society for In Vitro Fertilization Webinar: Hysteroscopic findings and endometrium preparation prior to IVF held in Osaka (Japan) with the following lecture **“Endometrial pathologies: polyps”**.
- ✚ December 5th, 2021, during the Seminar Care Uterus, preserve health" Experts Forum-Fuzhou Station held in Fuzhou (China) with the following lecture **“Renji guidelines and adhesion prevention in Hysteroscopy”**.

- ✚ December 9th/10th, 2021, during the Cortona Live Endoscopy, fertilità e procreazione assistita webinar held in Cortona (Italy) with the following lecture **“Morcellazione in isteroscopia”**.
- ✚ December 19th, 2021, during the seminar 5th West China Gynecology Microinvasive International Forum held in Chengdu (China) with the following lecture **“The Shaver Technique at the Sino European Life Expert Centre”**.
- ✚ January 27th, 2022, during the seminar Hot topics of the diagnosis and treatment of recurrent abortion held in Changsha (China) at the Hunan maternal and Child Health care Hospital con with the following lecture **“Hysteroscopic Diagnosis and treatment in repeated abortion”**.
- ✚ February 25th/26th, 2022, during ENDODUBAI webinar held in Dubai (United Arab Emirates), with the following lectures **“Storz Symposium: Tips and tricks for the Intrauterine Bigatti Shaver and Hysteroscopy 2: Intra uterine morcellators is it end of era of resectoscopy?”**
- ✚ March 11th, 2022, during the Seminar Learn from the experts – course 1 – Bioregen Master class in Minimal Invasive Surgery organized by the Mis Academy Europe held in Leuven (Belgium) with the following lecture **“Placental Remnants Removal”**.
- ✚ March 17th, 2022, during the Hysteroscopic Intensive Practical Course organised by the Mis Academy Europe held in Leuven (Belgium) with the following lecture **“IBS Shaver - way to go”**.
- ✚ April 1st, 2022, during the VIII Brazilian Congress of Endometriosis and Minimally Invasive Surgery held in Sao Paulo (Brazil) with the following lecture **“The IBS is not a morcellator: “Possible applications of the Shaver technique”**.
- ✚ May 19th/21st, 2022, during the ISGE Congress “Bringing MIGS to every patient” held in Agadir (Morocco) with the following lecture **“The IBS is not a morcellator: “Possible applications of the Shaver technique”**.
- ✚ July 25th, 2022, during the Hysteroscopic Fellowship hands on training program held in Dubai Dusit Thani Hotel (United Arab Emirates), with the following lecture **“The IBS is not a morcellator: “Possible applications of the Shaver technique”**.
- ✚ August 13th, 2022, during the 2021/ 2022 Shanghai OB/Gyn Forum held in Shanghai (China), with the following lecture **“The IBS is not a morcellator: “Possible applications of the Shaver technique”**.
- ✚ August 16th, 2022, during the 30th Beijing International Gynaecological Endoscopy & Mini-invasive Surgery online Symposium held in Beijing (China), with the following lecture **“The IBS is not a morcellator: “Possible applications of the Shaver technique”**.
- ✚ December 17th, 2022, during the Annual meeting of family planning 2022 held in Beijing (China), with the following lecture **“New Trends in Hysteroscopy”**.
- ✚ January 17th, 2023, during the Moscow XVII International Congress on reproductive Medicine webinar held in Moscow (Russian Federation) with the following lecture **“No More Blind D&C: The Shaver Technique”**.
- ✚ March 10th, 2023, during the Master of Hysteroscopy as director of Season 5 with the following lecture **“From Blind to visual D&C”**.
- ✚ May 12th /14th, 2023, during the 31st Beijing International Gynaecological Endoscopy & Mini-invasive Surgery online Symposium held in Beijing (China), with the following lecture **“From Blind to visual D&C”**.
- ✚ May 19th /21st, 2023, during the China – Reproductive Health Conference – Nanning Guangxi Zhuang Autonomous Region held in Nanning (China), with the following lecture **“From Blind to visual D&C”**.

- ✚ June 7th, 2023, during the XXXVI International Congress “New Technologies for Diagnosis and Treatment of Gynecologic Diseases” held in Moscow (Russian Federation), with the following lecture **“No more blind D&C, tissue mechanical removal systems a new era of operative hysteroscopy”**.
- ✚ January 31st, 2024, according to the cooperation agreement between Hunan provincial maternal and child health care hospital and high and foreign experts, Changsha (China), with the following lecture **“Uterine malformation & BIGATTI Shaver technique.”**
- ✚ June 5th, 2024, during the XXXVII Congress New technologies for Diagnosis and Treatment of Gynecologic diseases held in Moscow (Russian Federation) with the following lecture **“Tissue Mechanical Removal systems any limit?”**.
- ✚ January 30th, 2025, during the hysteroscopic training course "Operative hysteroscopy - second level" held at the Telecommunication Endoscopy Center of Pleven Medical University in Pleven (Bulgaria) with the following lecture **“Intrauterine BIGATTI Shaver today?”**.
- ✚ September 20th, 2025, during the IV Corso Nazionale di Video Chirurgia in Ginecologia e Ostetricia held in Cagliari (Italy) with the following video **“Myomas & BIGATTI Shaver compilation”**.

FIRST LANGUAGE	Italian
----------------	----------------

OTHER LANGAUGES **English – German (Beginner)**

• Reading skills	Good
• Writing skills	Good
• Oral skills	Fluent

RELATIONAL SKILLS MEMBER OF THE ROTARY - LANCIA CLUB TORINO

ORGANIZINATIONAL SKILLS Since 2009 is involved into the creation and development of a new surgical device called IBS Intrauterine Bigatti Shaver for Operative Hysteroscopy.

During the years 2014 - 2015 – 2016, organization of 8 workshops at the San Giuseppe Hospital: **“New Trends in Operative Hysteroscopy”** with the participations of 90 doctors coming from all over the world.

TECHNICAL SKILLS Good knowledge of MAC computer systems
Good knowledge of endoscopic equipment, video recording systems and image management

ARTISTIC SKILLS Piano player

OTHER SKILLS Runner and Skier

DRIVING LICENCE	C Military licence conversion n. MI 3925116 M
